

NOTICE OF MEP ENGINEERING OPPORTUNITY

George R. Brown Convention Center – South Building Project **Houston, Texas**

Populous, Inc. (“Populous”), as architect of record, has issued a Request for Qualifications / Proposals (“RFQ/P”) requesting competitive proposals for **MEP Engineering Consultant Services** in connection with the George R. Brown Convention Center – South Building Project in Houston, Texas.

The project consists of a new multi-use, multi-level convention center building, together with associated loading docks, ballrooms, conference rooms, display halls, retail spaces, parking structures (which may be underground), plazas, and other facilities to serve such building.

To receive a copy of the RFQ/P, interested respondents should contact Patrick Gleason, Senior Architect/Associate Principal directly at patrick.gleason@populous.com. Any questions concerning the RFQ/P should be directed to Mr. Gleason at the email address provided or by phone at **970-485-4812**.

Competitive proposals are due to Populous via electronic transmission by **5:00 PM CT on Monday, October 21, 2024**.

The project as a whole is to meet or exceed **30%** goal for diversity participation. The involvement of Small, Minority, and Women-Owned Business Enterprise (SMWBE) and Historically Underutilized Businesses (HUB) in the project is actively sought. Populous recognizes probable consulting opportunities for diversity companies in this proposal package.
